COOKTOP SURFACE

Shown with pedestal. Keep furniture at least 36" from front of stove.

The Republic™ 1750 wood stove offers the classic Lopi look -- a radiant surface for cooking and a convection surface for warming. And it packs a powerful punch. Its ceramic brick lined firebox is larger than most small stoves. To get heat to the room, the Republic 1750 uses a rear and top convection chamber to enhance warm air circulation throughout your home. This provides more even heat than you get with a radiant-only wood stove. The economically priced Republic 1750 is ideal for mid-sized homes and for zonal heating specific areas of larger homes. The Republic 1750 is also approved for Hearth Stove, Alcove and Mobile Home installations. The Republic stove comes with our "5 year Real World Warranty".

Options: Choice of Steel Legs or Pedestal, Convection Fan, Outdoor Air Kit and Firescreen.

Emissions	Heating Capacity	Heat Output	Maximum Burn Time	Firebox Size	Maximum Log Size	Weight	Construction	Efficiency
1.9 Grams Per Hour	1,200 to 2,000 Sq. Ft.	Cord Wood 72,400 BTUs/Hr.	Up To 10 Hours	2.2 Cubic Foot	Up To 18"	430 lbs. (With Legs)	5/16" to 3/16" Steel Plate	Up To 78.8%
