

ANSWER I N S E R T

5

Shown with the pewter door, ashlip trim and door handle, convection fan and 8" surround panels.

The Answer™ is a terrific way to heat a secluded room or small home. It conserves space by mounting flush into your existing masonry or zero clearance fireplace. Yet it still offers advanced features like a five-sided convection chamber to distribute warm air evenly and a single air control for easy regulation of burn and heat output. The Answer's door opening is 2 inches taller than most other small inserts, so you can easily load it with larger pieces of wood. The Answer has the largest firebox available in a small insert, so it offers longer burn times and gives you more time to enjoy watching the flames between fuel loadings.

Options: Door, Ashlip Trim and Door Handle in Black, Brass or Pewter Finish, Finish Panels, Convection Fan, Etched Elk Glass and Firescreen.

Emissions	Heating Capacity	Heat Output	Maximum Burn Time	Firebox Size	Maximum Log Size	Weight	Construction	Efficiency
4.4 Grams Per Hour	750 to 1,200 Sq. Ft.	Cord Wood 66,800 BTUs/Hr.	8 Hours	1.6 Cubic Foot	18"	285 lbs.	5/16" to 3/16" Steel Plate	Up To 79.6%
