The Berkshire is shown in the Oxford Brown porcelain enamel finish. Enhancements include the Brick Fireback, Linenfold side and top panels, and painted flue pipe.

Maximum BTU
Input per Hour
31,000 (NG & LP)

Minimum BTU
Input per Hour
10,700 (NG) 12,600 (LP)

Heating Capacity*
Up to 1,500 sq. ft.
with fan

Steady State Efficiency
Up to 81.5% NG
81% LP

Canadian P.4.1
Efficiency
Up to 72.9% NG - 73.1% LP

*Heating capacity may vary depending on degree of home insulation, floor plan, ceiling height and the ambient temperature zone in which you live. Contact local building or fire officials about restrictions and installation requirements in your area.

The Berkshire is shown above in the New Iron painted finish. The Brick Fireback completes the unit.

Think of the Berkshire as a functional work of art. Its classical balance and symmetry resembles a piece of fine furniture. This solidly built stove features decorative cast iron on the outside with a heavy-gauge unibody steel firebox for added durability. Design details include a large viewing area (18 inches wide by 12 inches high), and your choice of raised Linenfold side panels with delicate moldings or beautiful stone accents typical of early American architectural style. It's no wonder the Berkshire is the best selling cast iron gas stove in America.

AROMATHERAPY TRAY

Lopi is the only company that gives you the option of adding a hidden Aromatherapy Tray to your stove. Aromatherapy soothes the spirit, invigorates the mind and relaxes the body. Add the optional Essential Oil selection of Eucalyptus, Lavender, and Ylang Ylang oils. Ask your Lopi dealer for a demonstration.

ACCENT LIGHT

The standard accent light adds a warm glow even when the fire is turned off. The standard accent light feature adds a glowing backlight behind the logs and against the optional ceramic brick fireback. It's perfect as a night-light or soft indirect light for the room.

BERKSHIRE™ CAST IRON GAS STOVES

11

The Berkshire™ GreenSmart (GS) by Lopi features the revolutionary GreenSmart system and realistic Ember-Fyre burner. The Berkshire was the first Lopi stove to introduce the award winning Ember-Fyre burner with its realistic logs, glowing red embers and the most wood-like fire of any gas stove.

With the combination of convective heat, radiant heat and 31,000 maximum Btu heat input, this stove is ideal for mid-sized homes or for zonal heating large areas of your home. The Berkshire is a great choice for those looking for an energy-efficient cast iron stove, as it is powered by the GreenSmart system – the latest in energy-efficient gas technology that heats the home while saving on energy usage and lowering heating bills.

The Berkshire gas stove gives you the option of a complete cast iron stove or one with your choice of three different stone kits, you get to decide!

The Berkshire comes in four models.

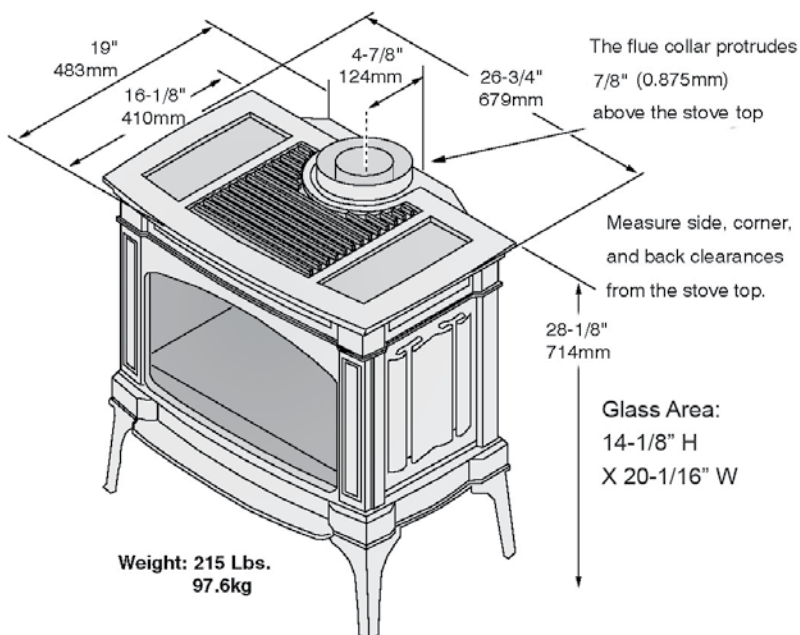

- **New Iron Paint Finish**
- **Hand-Rubbed Carbon Black Patina**
- **Oxford Brown Porcelain Enamel**
- **Majolica Black Porcelain Enamel**

Both come standard with Linenfold side and top panels, but can be updated with stone.

Both enamel models offer you a choice either the Linenfold side and top panels, or one of the stone kits.

Stone Kits come in two styles and include tops and sides:

- **Soapstone**
- **Spice Granite**

The New Iron painted Berkshire understates the durability and beauty of cast iron construction. This soft paint finish highlights the delicate moldings and design details. This model comes with standard Linenfold side and top panels, but can be updated to stone.

Any of the Berkshire stoves can be enhanced with your choice of optional stone kits. New Iron painted unit shown here with the optional Soapstone Kit.

Soapstone is a soft stone that is known for its ability to hold heat for extended periods of time.

OPTIONS

**Aromatherapy
Tray**

**Essential
Oils Kit**

Carbon Black Patina - A process of extreme heating, quick cooling and chemical reactions that drive the textures and colors deep into the metal then the edges are hand-rubbed creating beautiful, permanent finish.

This Oxford Brown Enamel model features a gloss finish that reflects light from the relief carving of the Linenfold side panels and the traditional, colonial architectural details.

Shown with optional Oxford Brown Linenfold side and top panels.

Majolica Black Enamel - this Tuxedo black porcelain enamel features a two step enamel process (cream undercoat with black overcoat) that really highlights the details and edges of the unit with a crisp pin-stripe appeal.

Shown with optional Black enamel Linenfold side and top panels.

This Berkshire model is pictured with the Spice Granite Stone Kit. The subtle appeal and richness of granite is universal. This rugged material is mined then precision polished to bring out the warm color and earth tones of the minerals locked in the stone.
